

## **New Electric Service Pole / Meter**

This is the receipt for the new electric service pole and new meter that was ordered and installed by Blue Bonnet Electric

Aqua water already has a meter at the road and an underground water line is already in place on the property.

Property owner (Seller) is needing to relocate to a different county and ended up not building on the property after all.

**Bluebonnet Electric Cooperative, Inc.**  
P.O. Box 729  
Bastrop, Texas 78602

Dear NORTHSTAR PARTNERS REVOCABLE TRUST

Bluebonnet Electric Cooperative looks forward to serving your electric utility needs. Please read this information about our processes, procedures and the items for which you are responsible before we provide service.

- ✓ Although a contribution-in-aid-of-construction payment (CIAC) is required, Bluebonnet has complete ownership and control of its entire electric distribution line that serves your property, with the right to serve other members from that line.
- ✓ Bluebonnet requires a clear right-of-way (ROW) for access to poles and equipment for the entire length of all electrical lines. In some cases, permits are required from other entities before Bluebonnet can install new service. Bluebonnet will prepare and send the necessary documents for this part of the process. Some permits can take several months to obtain.
- ✓ Members will own and be responsible for maintaining the meter loop. If the meter loop is to be mounted on a pole, members can purchase the meter loop from Bluebonnet. Meter loops purchased from Bluebonnet are guaranteed for one year from the date of installation and will be delivered and installed at the time of line construction. Meter loops can also be purchased from electricians. If you choose to purchase the meter loop from an electrician and it is on location at the time of construction and it meets Bluebonnet's specifications, it will be installed by Bluebonnet at no extra charge. (see disclaimer on Page 2)  
(Meter loop Specifications can be found at [www.bluebonnetelectric.coop/Residential/Meter-Loops](http://www.bluebonnetelectric.coop/Residential/Meter-Loops))

The Total Project Cost amount located on Page 2 of this letter is in direct response to your electric service request. The Total Project Cost amount must be paid in full before the construction of facilities begins. We cannot accept partial payments. For your convenience, payment can be made by the following three methods:

**By mail:**

Bluebonnet Electric Cooperative  
Attn: Engineering New Service  
P.O. Box 240  
Giddings, TX 78942-0240

**By telephone:** 800-842-7708 via credit card (MasterCard, Visa, Discover or American Express)

**In person** at any Bluebonnet member service center:

- 690 Texas 71 West, Bastrop
- 2401 U.S. 290 West, Brenham
- 3190 East Austin, Giddings
- 1916 W. San Antonio St., Lockhart
- 810 Lexington St., Manor

Please include the Work Order Number (located on Page 2) with your payment. If you have any questions, please call Member Services at 800-842-7708.

Once all necessary permits, documents and payments are received, you will be contacted by one of the following persons who will be in charge of scheduling the construction of your project.

Customer #: 4500124735

Important Notes:

Meter loops purchased from Bluebonnet are guaranteed for (1) one year from the date of installation and will be delivered and installed on the pole at the time of construction. If you choose not to purchase a meter loop from Bluebonnet then you are responsible for acquiring the meter loop. The meter loop must meet Bluebonnet's specifications and be on site at the time of construction. If the meter loop does not meet Bluebonnet's specifications or is not on site, you will be charged \$125 for a return trip to re-inspect and install the meter loop. (Specifications are located at [www.bluebonnetelectric.coop/Residential/Meter-Loops](http://www.bluebonnetelectric.coop/Residential/Meter-Loops)) An applicant for electric service to whom the Cooperative has made electric service available shall have the premises wired and ready to receive electricity within thirty (30) days thereafter. Applicant shall be billed the minimum monthly charge contracted even though a meter has not been installed at said location and pay in accordance with the current Tariff. This rule is designed to apply to situations where the Cooperative has incurred expense in making electrical service available and the Applicant unduly delays consumption.

*This cost is good for 60 days from the date of this letter.*
